

## III

TC111

21.5"l x 13.8"w x 3.9"h  
546mm x 350mm x 99mm

### DETAILS

Length: 21.5"  
Width: 13.8"  
Height: 3.9"

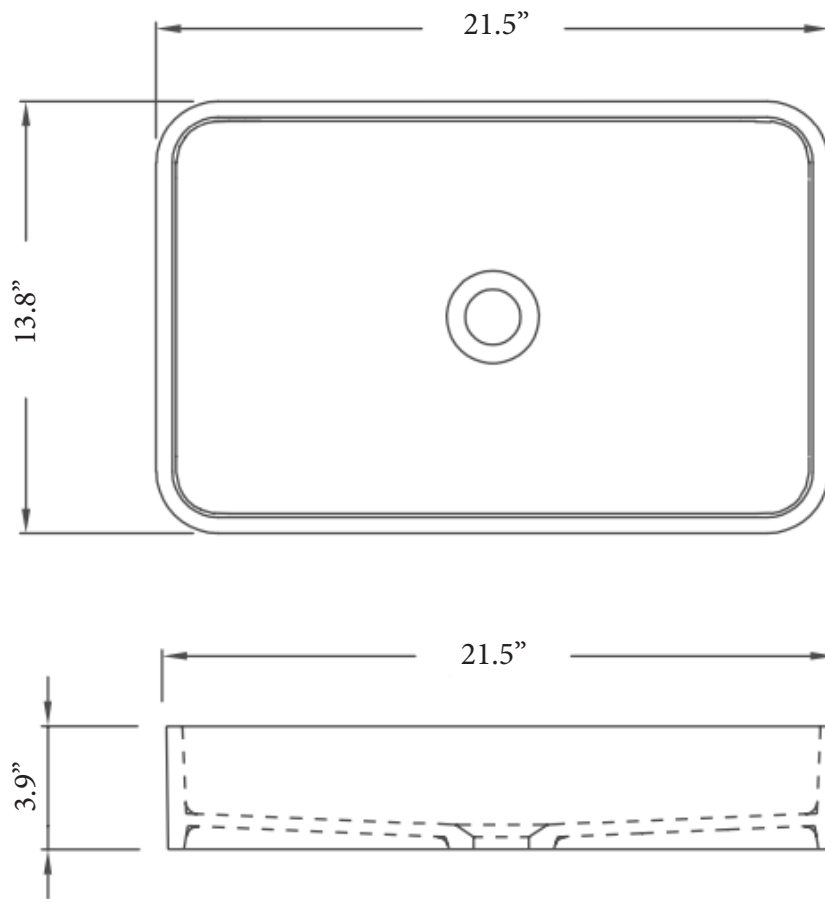

### DESCRIPTION

This shorter, wider version of our tall pillar sink retains the original's signature corner curves and elegant truncation at its upper edge in a smaller variant whose size offers a greater variety of installations and possibilities. With this model in particular, the finish imbues its personality. Aged brass with a white lining lends a royal lustre while grey concrete and black iron create a museum-like ambiance. Which direction will you choose? Or will it choose you?
